Specifications: TB-1 Wireless USB Tablet

HITACHI
Inspire the Next

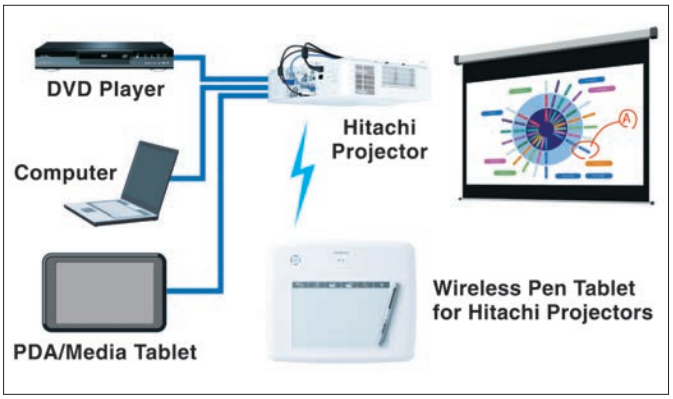
Peripheral Plus Series

- No software installation necessary
- Wide range of interactive functions, no computer required
- Annotate or draw over images on screen
- Plug and play (with supplied wireless adapter)
- Application versatility
- Projector control function
- Lightweight pen for easy annotation

Interactive wireless USB tablet with pen for compatible Hitachi projectors.

Easy installation, connectivity and interactivity

The TB-1 Wireless USB Tablet with pen provides you interactive functions and the ability to annotate or draw over images from a compatible Hitachi projector. The tablet connects directly to the projector so no computer or software is required.



Annotate over any projected image and use as the projector's remote control

You can annotate over video or still images from a variety of sources connected to the projector. A built-in utility serves as a remote control enabling you to easily switch between inputs from the tablet's tool bar. Change sources, power on/off, change pen functions and more—without having to access the projector remote.

User-friendly design

Easy setup

With a simple press of the ON button, the TB-1 Tablet is ready to use.

Long battery life

A fully charged battery can last up to 16 hours.

Easy handling

Hitachi's TB-1 Tablet fits securely in hand, making it easy to hold and to use, whether you are standing still or moving about the room.
